

THE ARRIVAL OF
BISHOP WHITTAKER

He Will Be Tendered a very Cordial Reception by His Old Pupils.

Bishop and Mrs. Whittaker arrived last night from San Francisco, where they have been attending the Episcopal Triennial Conference.

They were entertained last night at the home of Mrs. S. J. Hodgkinson, and will spend today in Virginia.

Friday afternoon from 3 to 5 they will be tendered a public reception at the Riverside club house by the Bishop's former pupils in this city.

During the evening they will be given a private reception at the home of Mrs. Ed. Coffin on Fifth street.

Bishop Whittaker was heartily greeted on his arrival. He was bishop of this State for twenty years and conducted a young ladies' seminary here from 1877 to 1887. There are still about 42 of his pupils residing in this city and they all love and reverence their preceptor. The Bishop and his wife have a host of friends in this city and State and they will endeavor to make their brief stay here a pleasant one. They will leave on the midnight train for San Francisco and will go east via the Northern Pacific.

Of Interest to the
Nevada Volunteers.

The following will be of interest to all the boys who volunteered from Nevada to help Uncle Sam during the fracas with Spain:

It is announced that attorneys have discovered that every volunteer who enlisted in the Spanish-American war is entitled to bounties amounting to \$186 provided by a federal and state statute of some of the States many years ago. The state bounty law provides for the payment of \$84 and the federal law grants \$102 to each volunteer. The matter is now pending before Attorney-General Knox at Washington. The outcome will be interesting to all volunteers.

Lots Selling Fast.

Lots in St. George's addition are going like hot cakes. A. B. McKinley, a salaried man of Auburn, has purchased two choice lots and will build a handsome residence. J. B. Self has purchased a lot and so has U. N. Carpenter. Mr. Self expects to build right away. Considering the location, these lots are gilt edged bargains.

A HANDSOME PRESENT.

A beautiful line of elegant hand painted China at Golden's Jewelry Store. Call and examine our stock, the finest on the coast.

NOW IN STOCK.

Pianos, the world renowned Steeg, known as the old reliable, also the celebrated Everett, which was played in New York City in Steinway Hall and won the favor of the audience. We also have cheaper pianos to suit all classes and terms the most reasonable.

Our motto is square dealing, looking for future patronage.

TERSE AND TO
THE POINT

Little Bits of Items, but Still Worthy of Mention.

Fresh easterly wind is prophesied for today.

There are twenty-seven prisoners in the county jail.

A number of sheep are being dipped at the Kelly plant near this city.

Bishop Whittaker will hold services in the Episcopal Church Friday evening.

The Hammersmith trial was completed last night and the case given to the jury.

Leander A. Brown and Laura A. Ogden, both of Columbia, California, were married in this city yesterday.

Some splendid specimens of copper ore from the Clark and Currie mine are on exhibition at the Arcade hotel.

The Sullivan tunnel has been advanced to 560 feet. The owners of the property expect to encounter pay values soon.

A carload of wheat arrived yesterday from Perth. It was consigned to the Riverside Mill Company and was shipped by Joseph Hill.

Casper Becker will have the Sacramento lunch counter ready for business this morning. At noon Sunday the restaurant will be formally opened with a big eat.

Will Test the Law.

A number of Carson and Reno people subscribed money to test the new game law. P. J. McMahon, by previous arrangement, was arrested and fined \$25 for killing quail and has appealed the case to the Supreme Court.

Awaiting the Mill.

On account of the lack of bin room very little ore is being hoisted from the Reno Star mine. The men are blocking out bodies so that it can be knocked down very rapidly. The new mill will be in operation in about a month.

A BRIGHT OUTLOOK
FOR THE EMPIRE CO.

Senators Pettigrew and Butler Have Taken Hold of This Proposition.

U. S. Senator Pettigrew of South Dakota and U. S. Senator Butler have become identified with the Empire Copper Company of New York, whose mines are here.

Senator Pettigrew has been elected President.

Work will be pushed on the mines and men will be put on as fast as room can be found for them.

H. L. Cowles of New York and Mr. Hill of Hunt, Hill & Betts, the great New York law firm, will be in Reno in a few days. They left New York on the 14th. They come to make arrangements to start work on six other claims owned by the Empire Company.

The Palace barber shop on Commercial Row is the handsomest in Reno. It has been thoroughly renovated. Porcelain bath tubs. A North, proprietor.

A Hot Race in
Carson Sunday.

All indications are that a large crowd will go over to Carson Sunday to witness the five-mile race between Wing and Stanley. It will be a hotly contested event and has been much talked about for the past month. Both riders are training conscientiously and expect to put up the ride of their lives. Wing is the best five-mile rider in California and Stanley is one of the best long-distance riders in the Reno Wheelmen's Club.

It will be a pursuit race. The riders will start simultaneously half a mile apart. Considerable betting is already being done in this city. Wing started as a three to five favorite, but the short end is being picked up so rapidly that the ratio will probably change today. Stanley is in splendid condition and determined to win.

The News says: Another attraction has been added to the bicycle races of next Sunday at the track. In addition to the great event between Wing and Stanley Ed. Peterson and Howard Mulcahy will ride five miles under the same conditions, that is they will start a five-mile apart. Both are speedy men and will put up an interesting race.

Other events will be arranged for and spectators are assured of an afternoon of rare entertainment.

COMMENT

Are the Christian People of Reno Guilty of Lukewarmness?

Editor Journal.—In regard to the remarks in your valuable paper Tuesday, October 15th, about the small interest manifested in Christian work in this city, I would thank you for inserting the following.

C. E. HOGENSON,
Captain of V. of A.

A Call to Arms.

Is it possible that the Christian worker in our town is less zealous about the battle against sin than is the man of the world about the warfare of the gambling house, the dance hall and the many other places run for earthly gain?

The Daily Journal gives to the disposal of Christian people at least one column every week through which could be echoed the sermons of the various churches and houses of worship in our town, and that column is not made use of, it looks indeed, as if we need heed the call to arms expressed in the old hymn.

"Stand up, Stand up for Jesus,
Ye soldiers of the cross;
"Lift high the royal banner,
"It must not suffer loss.
"From victory unto victory
"His army he shall lead
"Till every foe is vanquished
"And Christ is Lord indeed."

GENERAL
ASSEMBLY
ADDRESS

Dr. Phelps Discusses Manhood in Literature.

The Speaker Reviews the Ancient and Modern Literature of All Nations.

The General Assembly address yesterday afternoon was delivered by Rev. Dr. Phelps. His subject was "Manhood in Literature." It is regrettable that lack of space prevents the reproduction of more than a few quotations from his interesting address:

Literature is the written record of the inner life of a people. It is the hived-up wisdom of many generations. It is, as has been said by one who is a master of literature, "the best thoughts of the best minds through many generations." It is the thought product of the clearest, most penetrating and most sympathetic insight of the nature most rarely and richly endowed. It is an account of the life of a people, not of their rulers, political or ecclesiastical, not of the doings of the court or the legislature, not of war, diplomacy or finance, but what the people thought and felt and did. Neither is it an account of the external, physical conditions of the life of the people.

Literature is the attempt to express, in one form or another, in history, oration, poem, drama or fiction, the deep inner life of a great people. There is required for the accomplishment of this task the supreme quality which we describe by the word "genius," and genius is good sense, quick sympathy, patient insight, the power to think fruitfully, naturally, spontaneously.

The speaker reviewed the literature of the various nations in the various ages and drew conclusions. He concluded by saying:

Manhood in literature must conform to its own high and glowing ideals, and it must give us not what we want, but what we need, for our soul's health. It must have the clear insight necessary to discern between the idle want and the spiritual need, and the courage to show us the latter.

Genius must also, in the realm of literature, show itself to be courageous in the presence of difficulties. Genius may find itself poor, but poverty affords no sufficient ground for the flight of genius from its difficult and lonely duties. One may find himself slenderly equipped in this world's goods not only, but his lot and work cast in a political society in which birth and rank and wealth take precedence of capacity, virtue and worth.

But genius, if it be true to the noble exhortations of a lofty manhood, must, in all its efforts to report and give perpetuity to the thought-life of a people, rise gloriously superior to all that is narrowing, cramping and confining.

And, finally, genius in literature, and, indeed, in every other realm in which it works, must not only acknowledge the law of moral obligation, but must confess the graduation of that law, its intensification, its increasing stringency, in proportion to the greatness of one's light, opportunity and gifts, for genius, opulence of intellectual endowment, instead of being an excuse for falseness, cruelty and immorality, creates additionally obligation, multiplies and sharpens the reasons for a higher morality and a purer spirituality on the part of the gifted man. "For unto whomsoever much is given, of him shall be much required."

American literature is not unworthy of its high descent. It, too, sings the songs of duty and right. Its voice is not that of a siren. It charms to invigorate and strengthen, not to debilitate and destroy. It is full of moral vigor and health. It is clean, wholesome, inspiring. Its masters have ever been the servants, not the hirelings, of truth. Whittier and Longfellow and Holmes and Bryant and Hawthorne and Emerson and Prescott and Irving and Lowell and Curtis and Holland, have all the same lesson to teach—we must obey God if we would become and remain strong, wise and free. I covet for the creators and guides of our literature all rare gifts of genius, all fire of eloquence, all felicity of expression, but chiefly do I pray that they, and all writers everywhere, may never fail to teach that wrong at last shall be overtaken and punished, and right shall be eternally triumphant. The ultimate sovereignty in literature belongs to manhood!

Promising Mine
Out at Pyramid.

Mr. Bidwell of the Norton & Bidwell mine at Pyramid was a visitor to the Journal office yesterday. He gave an interesting description of the mine. Work is being done in a four-foot ledge carrying \$120 per ton. An inclined shaft is down about ninety feet and a drift has been run from the bottom of the shaft 115 feet on the ledge.

In some places the lead is eighteen feet wide. The values are in gold and silver and are free milling. The company expects to erect a mill in the spring. Two shifts of from four to six men are employed and the ore is being hoisted by a whim. The bucket lifts six hundred pounds. Very little waste is being extracted.

In a short time work on the drift will temporarily cease and the shaft will be sunk one hundred feet further on the ledge.

Mr. Bidwell says that the ledges at Pyramid are all well defined and may be traced on the surface for miles.

LATE TONOPAH
HAPPENINGS

Clippings from the Bonanza About This Camp.

James L. Butler returned from San Francisco today, where he has been receiving the second payment on the Tonopah mines of \$100,000, which was made on the 15th inst. The Philadelphia people offered to make the last payment but Mr. Butler stated to them that he was not in need of the \$180,000 and that January 1st the time specified to make the payment.

Knapp & Sunderland have just completed their addition to their assay office and now have one of the most complete offices in the state. These two young men are graduates of the Battle Born University, and by their efficient work have made 2700 assays during their time in Tonopah. The large number of assays made by them speaks volumes for these young men for accuracy.

A drug store will soon be opened. The contract has been let for the new school house building.

The Tonopah Miners' Union intends to build a suitable hospital for their sick members.

Tonopah has 105 frame buildings and 175 tents. The population is estimated at one thousand.

About one thousand dollars will be paid into the county treasury this month for gambling games in Tonopah.

If some enterprising man would ship about 600,000 feet of lumber to this camp he would sell it all, for cash, inside of thirty days. There is no lumber here now.—Bananza.

A gentleman of color was given a hearing yesterday on the charge of selling liquor to Indians. A couple of people were summoned to prove an alibi, but they failed to alibi him and he was bound over.

THERE'S NO CAUSE
FOR A DISPUTE

Just Acknowledge the Corn and all Will Be Quiet and Serene.

Look here, Bill! Booth!

Have the wing riches of Tonopah flown away with your gray matter?

Won't you please stop harping about "The comparative yields of the Reno Star and Tonopah mines?" You have the biggest and best mines in the State down there, but, by the Journal's halldom you haven't got the biggest and best individual mine in Nevada. We claim to have that right here in Reno.

Whoop her up you Bonanza quill driver, for matchless young Tonopah, and every time you write up a column The Journal will have a paragraph or two about your camp, even if it clips the stuff from your paper. The Journal has a lot of Tonopah ore in its sanctum and dilates on the riches of your camp by the hour when mining men drop in.

Can't you and Major Ingalls get your heads together and agree to acknowledge that the Reno Star has any single Tonopah mine skinned a foot or two?

Please do, Billy.

Then all will be serene along the eastern slope of the Sierras.

The Youngest Prospector.

The youngest prospector that the mining boom in Reno has developed is Harry Cross, the 11 year old son of C. Cross. Some days ago he was out at his father's mine and climbed a nearby hill. In an hour he returned with his arms full of rock. An assay showed that it ran \$9.35 in gold and silver.

Rural Mail Delivery
for This State.

George A. Gilbert, special agent of the Postoffice Department at Washington, was in Carson this morning for the purpose of securing star route mail proposals in Nevada for the next four years. The Department is letting contracts to parties living on the line, and not to people living off, who have heretofore secured them and sub-let them.—says the News.

With the letting of the new contracts, which we believe go into effect next July, will come the introduction of the rural free mail delivery, so popular in the East and other portions of the country where it has been tried. Any one along the stage road or adjacent has but to erect a box on the line and his mail will be dropped therein.

MACKAY'S LIBERAL OFFER.

THE offer of John W. Mackay to build a Pacific cable without any government bounty or guarantee, has rather upset the plans of those who have been giving the subject attention. The need of such a cable has long been recognized; it was more urgent when Hawaii was acquired, and became still more so after we began operating in the Philippines, and assumed such great responsibilities there. The matter was given considerable attention at the last session of Congress, but as two propositions were eagerly urged, but little progress was made. One proposition was to give the franchise to a private corporation, granting it the exclusive privilege, and of course giving it all the public business for 20 years, not in excess of \$300,000 a year. The other was to construct the cable by the government and to keep it entirely under government control.

Now comes the application of Mr. Mackay for the privilege of landing a cable on the western shores of this continent, on the Sandwich Islands, Guam and the Philippines. Even the exclusive privilege is not asked for. It is agreed that the rates for doing the public business filed with them shall be done at charges from 40 to 60 per cent less than are now being paid, and that the work shall be completed and the line in operation within two years from the time the privilege is granted. It is also stipulated that in time of war, or any similar stress, the line shall be turned over to the government for its use whenever it shall make its desire for such privilege known. In short, all of the advantages to the government that were included in the exclusive franchise proposition are embodied, and every privilege that could be secured by government ownership as well—all without a guarantee or the expenditure of a dollar by the government. It is held by Mr. Mackay, who has had the matter investigated, that it is entirely within the function of the President to grant such privilege if he deems it wise, and the Attorney-General has been asked by President Roosevelt to advise him upon that point, and the Secretary of State as to the wisdom of acceding to the request, if within his power to grant it.

This has stirred up those who were particularly interested in the matter before the last Congress. It is a tough proposition for their plans to face, but their first stand is naturally, that Congress instead of the President holds the power. If they can make that point, then they can have some chance to fight it out. If they cannot, they are virtually ruled out if the President takes the matter up and acts for what would manifestly be to the advantage of the nation.

It is to be hoped that the President possesses the power, and that he will exercise it. In that event Nevada can boast that she has been instrumental in exploiting the greatest and most liberal cable enterprise that the world has ever known, for it was the wealth of her mountains that enabled the promoter to make and carry into effect his most magnificent proposal.

NO TIME FOR DESPAIR.

THE editor of The Commoner has recently received a letter from a Democrat who, feeling that his efforts have been fruitless, is inclined to hibernate for a while and take no interest in public affairs.

While this is the only letter of the kind received it probably reflects the feelings of a considerable number of persons who have labored long and earnestly in behalf of reforms without being able to note the progress they had hoped for and had reason to expect. It is not unnatural that a period of enthusiasm and earnestness should be followed by a period of depression and despondency. Even the best of men have sometimes halted and hesitated in the prosecution of a noble cause. Elijah, one of the most courageous of the prophets of the olden time once became discouraged, but the Lord revived his drooping spirits by showing him that there were thousands who had not "bowed the knee to Baal."

So reformers can take courage today, for though the enemy is even more strongly entrenched than we thought, there are millions who are still loyal to Jeffersonian principles and still interested in reforming the abuses which have grown up under Republican rule.

The fight must be continued. Whether the battle be long or short, it is the duty of every citizen to think for himself, form his own convictions, and then stand by his opinion, confident that the right will finally triumph and that the truth will ultimately prevail.—Commoner.

NEVADA is the home of hot springs. No State in the Union has their equal for medicinal virtues. Shaw's, Steamboat, Walley's, Laughton's, Kyle's, Golconda and Elko's are among the more wonderful. They all have curative mineral properties. Hot springs, cold springs, mud springs, iron, sulphur and other mineralized springs abound in Nevada. They are another of Nevada's neglected assets.

THE day is not distant when Reno, having become the Saratoga of the west that an electric road

will climb the hills toward Tahoe. If Colorado Springs can afford a tramway road to Pike's Peak, why not Reno afford a road to Mount Rose and Tahoe? It would be a fascinating ride by electric road from Reno to Tahoe and such a project is among the possibilities of the future.

PRESS COMMENT.

The salt trust is preparing to extend its control to all of the salt produced in the whole world. In the future it may be hard for a man to earn his salt.—Grass Valley Union.

An authoritative announcement is made that Harriman will build a road through Nevada to compete with Senator Clark's road. This kind of talk is common, and may be correct, but Harriman did not arrive at that conclusion until he saw that Senator Clark was in earnest in building the Salt Lake & San Pedro railway.—Grass Valley Union.

It is now stated that Uncle Sam is thinking of advancing \$150,000 to ransom Miss Stone, the missionary, from the Turks. Uncle wants to be careful with these Turks, or he may get a squabble on his hands similar to that which he recently had in China.—Lyon County Times.

David B. Hill is strongly in favor of a law to protect the President and other high officers from assassination. Mr. Hill has an eye on the Presidential chair himself.

Poor little Nevada received one silver medal at the Buffalo exposition. The State's mineral exhibit was acknowledged the best there and deserved one of the gold medals which were scattered around so promiscuously. The State has paid \$5,000 for a miserable medal which could have been purchased in the open market for 50 cents.—Silver State.

GENERAL KITCHENER has urged the British war department to send him more troops. The reason his request was not granted is that it cannot be granted without a draft—a humiliation which British pride had hoped to avoid.

ALL AROUND THE STATE

A Few Gleaned Paragraphs of Nevada News.

A Gardnerville youth, in a mischievous mood, set fire to his father's 100-ton haystack.

Ranchers in the vicinity of Dayton refused \$20 per ton for their potato crop from buyers.

The Ford Live Stock Company of Eureka has been re-incorporated under the name of the Eureka Live Stock Company.

Laboring men are overrunning Tonopah and there is little or no work to be had. Mechanics are advised to stay away from the town.

Mrs. C. E. Mack is paying official visits to the Rebeah Lodge, I. O. O. F. throughout the State, of which she is Grand President.

The Commissioners of Eureka county have raised the tax rate to \$2.50 on the 100 on property outside of Eureka and to \$3 on property inside of the town limits. This was found necessary to meet the demands for taking care of the indigents of the county and for road, bridge and election purposes next year.

A couple of ranchers from Dayton paid Carson a visit yesterday. They report big doings with the spud crop down that way. The California buyers are on the ground and \$20 per ton is offered for the crop. Most of the ranchers refuse to sell at that price as they believe that the tubers will reach a higher figure within ninety days. —Carson Appeal.

TOT CAUSES NIGHT ALARM.

"One night my brother's baby was aken with Croup," writes Mrs. J. C. Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." ALL AROUND THE STATE

A Few Gleaned Paragraphs of Nevada News.

A mill will be constructed at the Lizard mine below Sutro.

Operations at the Chairman mine are being pushed energetically.

The American Nitro Company is operating its nitro deposits ten miles from Lovelock.

The shaft on the Saxton mine at Ely will be sunk 200 feet or more before beginning to drift.

The White Pine News says that at the Sapho mine at Ely they expect soon to break into good ore.

A small force is engaged in cleaning up and preparing for active work at the Magnolia mine at De LaMar.

H. C. Lee, who bonded James Murphy's mine at Churchill will soon put eight men at development work.

The Douglas Copper group in Mason Valley has been bonded for six months to Captain Delamar for \$250,000.

The company at Tonopah intend to sink two 500-foot shafts 1,000 feet apart and by means of crosscuts to prospect the entire area of their mine.

The Carson public schools were closed yesterday on account of a case of scarlet fever, and will not re-open until physicians decide the disease is stamped out.

About fifty miners employed at the De La Mar mine near the town of the same name. As soon as the mill alterations are completed leaching of a large amount of ore carrying about 5% in gold will be commenced, says the De La Mar Lode.

Will Be Next Attraction.

If you would enjoy seeing a good play with plenty of stirring situations and sparkling comedy, and without a single line or situation that would offend the most fastidious, a visit to the opera house will repay you, where "The Convict's Daughter" will hold forth on the 22nd inst, with that well known actor, William De Shetley, in the leading role.

Every device known to stagecraft is used in making the "Convict's Daughter" a success. No expense has been spared in the construction of the scenery, while the company is one of the best and most expensive ever brought together for a melodramatic production. That sterling actor, Mr. William De Shetley, will be seen in the leading role at the opera house Tuesday evening.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Bosche's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. C. G. Green's reliable remedies at Hodgkinson's drug store. Get Green's Special Almanac.

Take Notice.

H. F. PAVOLA INFORMS THE PUBLIC THAT he is ready and able to make the finest pair of boots and shoes that were ever made in the State of Nevada, for coin or marbles. I have secured one of the finest workmen from San Francisco and I calculate always to do high grade work as long as I receive the patronage of the public. The work speaks for itself. Repairing neatly done. My place of business, No. 31 Commercial Row, Masonic Building. sept11-1m

A FIENDISH ATTACK.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50 cents at S. J. Hodgkinson's drug store.

Reminder of Olden Times.

While looking over some old documents the other day, Lou Gentry uncovered a copy of the Nevada State Journal, dated November 5, 1886. At that time this paper was a five-column affair and was compelled to resort largely to clippings to fill up space. The editor was C. C. Fowling, now deceased.

A glance over the news columns reveals very little of general interest to any Renoties, except possibly the old-timers.

Since 1886 many of the business and professional men have passed over the divide. By looking over the following list of advertisers the changes of fifteen years will be noticed:

Dr. J. Wing Oliver, Dr. W. Bergman, Attorney J. F. Alexander, Real Estate Agent C. S. Martin, Dr. H. Bergstein, Notary H. L. Fish, Attorney Pierce Evans, Bishop Whitaker, Liveryman T. K. Hymers, County Clerk T. J. Julien, Chairman of County Commissioners S. C. Fogus, H. J. H. J. Thyes & Co., C. C. Chase, County Treasurer Boyd, Henry Rhue, butcher; J. E. Dealey, proprietor Lake House; Chucovich & Novacovich, proprietors Wine House; E. Dunning, merchant; Parry & Fitzgerald, proprietors Depot hotel; Wm. Pinniger, druggist; Nashby, stationer; Isaac Bennett, merchant; Al White, proprietor Palace hotel; D. A. Bender, president First National Bank; Abraham Bros., merchants; S. A. Hamlin, merchant; F. Levy & Bro., merchants, John Sunderland, merchant.

Who can foretell the changes that will take place within the next decade and a half?

Pleasing the Crowd.

The free show located at the intersection of Second and Sierra streets is attracting large and appreciative crowds nightly. Messrs. Hart, Wolf Sharp and Rogers are a combination that is hard to beat.

Two Bold, Bad Men.

J. Stewart and Thomas Scott were arrested by Constable Leeper for stealing a pair of trousers from H. Leter's store. They pleaded guilty and will be sentenced by Justice Linn today.

Nevada Winemaker.

Felix Vgliotti is the proprietor of the only winery in the State. He manufactures a quantity of wine every season. He will receive a carload of grapes from Colfax today.

SEEDS! SEEDS!

In order to facilitate the delivery of seeds, Mr. Newlands requests all those desiring a quota of seeds next spring, to send in their application: at the present time, thus assuring an earlier delivery than would otherwise be possible. Address all applications to Francis G. Newlands, House of Representatives, Washington, D. C.
